

Erratum

Refers to article: The Burden of Illness in the First Year Home: Do Male and Female VA Users Differ in Health Conditions and Healthcare Utilization? Volume 21, Issue 1, January/February 2011, page 94

Sally G. Haskell, MD, Kristin Mattocks, PhD, Joseph L. Goulet, PhD, MS, Erin E. Krebs, MD, MPH, Melissa Skanderson, MSW, Douglas Leslie, PhD, Amy C. Justice, MD, PhD, Elizabeth M. Yano, PhD, Cynthia Brandt, MD, MPH

Table 1 (below) contained a publishing error related to the characteristic describing level of education. The table is now corrected to refer to "Greater than a high school education." The Editors regret the error.

Table 1
 Characteristics of OEF/OIF Females and Males Who Have Used VA Services Within One Year of Last Deployment

Characteristic	Female (n = 19,520), %	Male (n = 144,292), %	p-value
Age mean (SD)	30 (8.8)	32 (9.7)	<.0001
Race			<.0001
